Birth Planning Options and Choices

(continued)

Procedure	Partner	Nurse	Dr/MW	Baby	C/S
Routine deep suctioning of baby's airways	x	x	x	x	x
Separation or interruption during the "golden hour"	x	x		x	x
Skin-to-skin for 18 hours (decompression chamber)	x	x		x	x
Erythromycin in baby's eyes	x	x		x	x
Vitamin K injection	x	x		x	x
Placenta being injected with Formalin	x	x		x	x

- Other things to include are: Your name (legal and preferred), your pronouns, your due date, your partner's name, your doula's name, your OB/GYN or midwife's name, your pediatrician's name, any allergies or medical issues you have.
- If you've had other births, you should mention that experience, i.e., "My first birth was medically managed, so it's important to me to avoid interventions for this birth."
- Personalize it - attach a snapshot of you and your partner to the birth plan to identify who provided the food basket.
- Your birth preferences, with its photo attached, will be read by every nurse at the station when presented with a small basket or gift bag of reasonably healthy snacks, such as cookies, fruit, crackers and cheese, nuts, etc. Chocolate can be included but there should be some nourishing food along with it. Fruit is also always welcome. Bring an additional basket or bag for the postpartum nurses, too!
- Birth plan for the nurses should only be one side of one sheet of paper.
- Your preferences should be positive, not negative! "I am hoping to work with a nurse to supports natural childbirth" is much better than "don't ask if I want an epidural."
- Doctor's birth plan topics need to be discussed ahead of time. When you go to an appointment, tell the doctor at the beginning that you have 2 or 3 questions that you want to discuss at the end of the visit. The doctor should be willing to respond to 2 or 3 questions at each visit.
- If you don't know what to say about any (or all) of these topics or why you might want them or want to avoid them or which ones might be harmful to you or your baby, [please enroll now for classes](#).
- You can also set up a [free 30 minute free consultation](#) if you have more questions.
- Additional information is available in the book, "700 Babies" and the website, [700babies.com](#).
